Permit Reminder

A reminder from the Housing Department: Before you make improvements to your home, call the Denton Town Office Planning & Codes Department at 410-479-3625 or stop by 4 N. Second Street for permit information. Thank you.

SNOW PLOW POLICY INFORMATION

Planning for a winter storm event can be difficult. The variations in rate of snowfall, moisture content, air/surface temperatures, time of day, and wind velocity make each storm unique.

The purpose of this policy is to clarify and describe the Town's snow plowing and sanding priorities and the level of service that is intended to be provided by Town forces. The Town does not guarantee that streets will be free of snow and ice after plowing and/or sanding. Bare, dry pavement should not be expected. The Town will attempt to maintain adequate traction for vehicles properly equipped for winter driving conditions.

It is the goal of this effort to establish general policies and procedures that help make travel within the Town as safe as possible and to minimize economic hardship.

Visit http://www.dentonpublicworks.com/streets/snow_plowing_policy.asp for the list of street priority.

Winter Weather Tips

Here are some helpful tips to keep you and your home comfortable during this winter season.

To keep your pipes from freezing, turn off all outside spigots and insulate the pipes to protect them from the freezing temperatures.

To prevent water damage in your home, so you don't experience a burst pipe, locate all the water shut off valves. Don't wait for someone else to turn it off. The delay could cause major water damage.

As far as snow removal in the town, streets will not be plowed unless there is a 2 inch accumulation. The snow removal equipment cannot withstand clearing the street for a trace of snow.

When shoveling out your driveway pile the snow in your yard not in the streets and always pile it to the left side of your driveway.

This prevents the snow from being pushed back in your driveway from the street.

During snow storms park as many cars as you can in the driveway to make snow removal easier. It may also prevent your vehicle from being damaged by other vehicles on the roads.

EMERGENCY ROUTES are a priority when removing snow, secondary roads and alleys are last. You must be patient the crews will get to your area as soon as possible.

Lastly, your safety and the safety of our snow removal crews are our number one concern. Let's do all we can to keep everyone out of harm's way.

CCCA Featured Artist

A life-long resident of Denton, Maryland, Sandra Jo Hayman learned Appalachian basket weaving during a course with a weaving master. Using age old techniques, Sandy hand weaves traditional baskets into functional or decorative items without the use of tacks or glue. Through a method

of weaving, tucking and packing, a unique basket emerges accented by varying rib length patterns designed by Sandy. Natural, dyed and smoked reeds are used along with other natural materials such as seagrass, honeysuckle and grapevine for added appeal.
