

**Caroline Summerfest**  
**August 16-17, 2024**

For over 35 years, Caroline Summerfest has been an outdoor celebration of arts and entertainment on the grounds and surrounding streets of the Caroline County Courthouse.

This 2-day event will take place August 16 & 17, 5:00 p.m. - 9:00 p.m. on both days.

Visit [www.CarolineSummerfest.com](http://www.CarolineSummerfest.com) for this year's theme. We invite vendors to decorate their booths to go with this year's theme, "A Storybook Summerfest."

We expect the event to attract approximately 8,000 participants.

**The booth space is open to NON-PROFIT, civic, government, church, or community organization serving all or part of the Caroline County community, please consider participating in this event.**

Your **NON-PROFIT** organization should consider this year's Summerfest as an important fundraising and public relations opportunity. Public patronage of food concessions, activities, game booths, and public information displays at the last event were excellent!

The specifics on booth space - size, cost, location, setup time, etc. - are detailed for you on the attached application. Please Note: Food trailers or food trucks are **NOT** allowed at this event. Thank you for your consideration.

There are separate vendor applications to consider - **Non-profit General Vendors, Non-profit Food Vendors, and Private Business Corporate Sponsors**. Visit [www.carolinesummerfest.com](http://www.carolinesummerfest.com) or (Call 410-479-8120 for Corporate Sponsor forms and info.), and **Artisan Vendors** (please call 410-479-8120 for an application).

If you are new to Summerfest, please feel free to contact us if you have any questions about what will work best for your non-profit organization. We are on Facebook, like us at [www.facebook.com/CarolineSummerfest](http://www.facebook.com/CarolineSummerfest).

**Please note that there are some important deadlines:**

- < **RETURNING FOOD VENDORS:** If you are a returning vendor from 2023, please complete this application form and submit by **May 10** (*to be placed in the same location as last year*).
- < **All applications due June 1.**
- < Applications received after June 1 must pay an additional \$29 late fee charge.
- < No applications will be accepted after July 15 (*unless space is still available*)

Summerfest is shaping into an exciting event. We hope you can be a part of it!

It is this person's responsibility to monitor food temperatures, food preparation and storage, personal hygiene and food handling practices. All personnel must be trained on proper hand washing and food handling.
2. **FOOD:** All food, including ice and drinks, must be obtained from approved, licensed commercial sources. **Food shall not be prepared or stored in a private residence.** Serve easy to prepare foods. Foods involving more than one handling, preparation or cook step are more likely to cause food-borne illness.

4. **FOOD PROTECTION:** Overhead protection will be provided for all food, food containers and food prep areas. Open "pit" style grills should have covers or other appropriate protection. All food must be protected from insects, birds, weather, heat and direct sunlight. Raw food products must have separate containers and utensils and kept in separate areas from cooked and/or ready-to-eat foods. All foods must be transported and held at the correct internal temperature.
5. **EQUIPMENT:** Must be in good condition, easily cleanable and sanitized before use.
6. **PROBE THERMOMETER:** A probe thermometer must be provided to monitor internal temperatures of foods. Thermometers must be able to read from 0°F to 220°F. Thermometers must be cleaned and sanitized before and after checking foods. Probe thermometers must be calibrated (ice water bath = 32°F).

9. **FOOD HOT HOLDING:** All hot food must be held at a minimum internal temperature of 135°F or above.
10. **FOOD SURFACES:** Equipment and utensils must be thoroughly cleaned and sanitized every 4 hours or more often as needed. Sanitizer of the appropriate strength should be used for cleaning surfaces. Cloths used for wiping surfaces should be used for no other purpose and kept in a sanitizer solution of 50 ppm chlorine when not in use. 13. **UTENSIL/EQUIPMENT CLEANLINESS:** A temporary 3 compartment sink set up must be available on site to wash, rinse, and sanitize utensils/equipment. All sanitized utensils/equipment must be air dried. The containers used must be sized to accommodate the largest piece of equipment. Chlorine sanitizer strength is 50 ppm. The manufacturer's directions must be followed for quaternary ammonium sanitizer. The appropriate test strips must be provided.

# Special Event Recycling Fact Sheet

Under Maryland Law, Special Event Organizers (SEO) are responsible for providing recycling at special events that meet the following three criteria:

1. Includes temporary or periodic use of a public street, publicly owned site or facility, or public park;
2. Serves food or drink; and
3. Is expected to have 200 or more persons in attendance. Projected attendance may be estimated based on past attendance, number registered to attend, the venue's seating capacity, or other similar methods.

### SEO's are responsible for:

1. Providing and placing recycling receptacles adjacent to each trash receptacle at the event;
2. Ensuring that recycling receptacles are clearly distinguished from trash receptacles by color or signage;
3. Providing any other labor and equipment necessary to carry out recycling at the event;
4. Ensuring that materials placed in recycling receptacles are collected and transported for recycling; and
5. Paying any costs associated with recycling at the special event.

### SEO's may fulfill the requirements to ensure materials are collected and transported for recycling through one or more of the following methods:

1. Transporting collected materials to one of Caroline County's recycling drop-off sites;
2. Contracting with a recycling hauler to collect the materials and transport them to a recycling processor; or
3. Receiving prior agreement from the site owner to use an existing recycling collection system available at the site.

### Materials to be recycled:

The special events recycling program must include collection of at least cardboard, plastic containers, metal containers, glass containers and paper. The SEO must assess the availability of food scraps recycling services for the event. If services are available, the SEO must provide for food scraps recycling, including provision of separate containers for organic and non-organic recyclables.

### What steps should I take before the event:

1. Obtain any required permits, licenses and/or reservations required for the event.
2. Think about the waste stream that will be generated at the event. Can the quantity of waste generated at the event be reduced? For example, water and condiments may be served from bulk containers rather than in packets or plastic bottles; printed handouts and other materials may be double-sided.
3. Determine which materials will be accepted for recycling and assess availability of food recycling.
4. Contract with a recycling hauler for recycling. Be sure to ask about accepted and prohibited materials and the pickup timing and locations.
5. Visit the event venue and determine the number and location of trash receptacles. Purchase or rent recycling
6. Recycling receptacles for placement adjacent to all trash receptacles. Free, printable images for signage are available here: [www.recycleminnesota.org/resources/free-signs-images/](http://www.recycleminnesota.org/resources/free-signs-images/)
7. Train staff that will be involved in the recycling program. Establish who is responsible for emptying recycling bins and when.
